NAEB MEETING SET FOR MAY 4

In connection with Ohio State's Thirteenth Institute for Education by Radio, NAEB will hold its annual business meeting night, May 4. Meeting is scheduled for 8 p.m. at the Deshler-Wallick Hotel, Columbus, Ohio.

We'll be there; hope you'll be there. Engel, McCarthy, Jennings, Ken Bartlett, Waldo Abbott, Higgy are among those we've been told who will be on hand. No doubt there will be more, and there should be.

Feeling that the general problems of radio and NAEB are inadequately covered by the Institute program, President Engel is going to direct the NAEB meeting toward problems that concern our own.

STORY ON MAE H - OUR APPRECIATION TO GRIFFITH

March 4 issue of the News Letter should have carried history on its cover, but we neglected to publish it then. Here it is, with apologies to W. L. Griffith.

"Effective February 11, 1938, notice to Institute members to the house between midnight and 7 a.m., this managements to omit our Farm Facts program, early market reports, farm services, and a talk from the WFAO program." Very true.

"While no reason is given for becoming apparent that one station is issued an order threatening a clear summer night." Very true.

For emergency messages, only the board of directors can convey may ask that the Institute to provide permission to others. During the winter of 1937-38, small numbers of requests were in order, but station managers will not interfere with the Institute.

KENTUCKY TALKS TO UNIVERSITY MEETING

When radio furnished the University of Kentucky a man will soon be a speaker on speech. Director of Radio Study will be at the University of Chicago.

APologize for omissions.
KENTUCKY TRAINING WOMEN (CONT'D)

A class is being organized there to train women to operate the controls in the studio, and practical experience will be given in the work. No previous training of any kind is necessary.

DEFENSE RECREATION CENTER ON W N Y C

The Defense Recreation Center where service men invariably head when they're looking for an evening's entertainment in New York, began providing entertainment for all New Yorkers Tuesday, April 14. On that date, the Defense Recreation Center began a radio series, entitled "So Papua Showcase" to be heard each week over New York City's own station WNYC.

The show features interviews with men from all branches of the armed services conducted by the famous names of the theatre. In addition, there is entertainment by the entertainment units from the many camps in the New York area and a talk by a "Guest of the Week" one of the many men and women engaged in helping the men feel at home in the biggest city in the world.

YOUTH SPEAKS FOR ITSELF

Six transcribed programs, "Youth Speaks for Itself" and five programs in the series, "Youth Tells Its Story," are available to any and all NAEB members wishing them, for Urbana. Many of our member stations have already run the series, but in case you haven't, set is available in office of Executive Secretary.

PAID YOUR DUES?

In checking records of NAEB for 1942 we note one or two members haven't forwarded dues to Treasurer W. I. Griffith, WOI, Ames, Iowa. Let's clean up and clear the records for 1942.

F. C. C. ACTIONS

WMCU, Cornell University, was granted renewal of license for period ending February 1, 1944. (4/1/42)
